How to make sure your profile syncs with the App and our database?

You can send a verification email under:

Profile > Settings gear > Send account confirmation email

Your MINDBODY account is **verified** and **synced** to the app based on matching:

Email address

If some of your accounts successfully synced—but others did not—then you may have used an alternate email address or your name was misspelled.

In that case, you'll need to manually sync your account.

Now check your Inbox for the verification email—it should arrive very shortly!

Open this verification email and click the enclosed link and find:

"Search for a business" section at the bottom of the screen

1. Enter the name of the missing business, and tap **Search**.
2. Tap on the **name** of the business you would like to sync.
3. Enter the **email address** and **password** you use with this business.
4. Tap **Sign In**.
